# MFC-235C

If you work from home or as part of a small office, the MFC-235C gives you all the key communications functions – colour printing, faxing, copying and scanning – in one compact, stylish machine. The MFC-235C won't leave your clients waiting as it delivers all your important business documents quickly and efficiently. You can send or receive both mono and colour faxes, and using the speed dials, its easy to communicate with your regular contacts.

Producing high quality colour copies is easy, thanks to its flatbed design that allows you to make copies of bound documents, presentations or brochures. You can print borderless photos directly from your digital camera using the PictBridge interface, and you can print directly from a USB Flash Memory Drive\* using the host USB connection.

What's more, with the all-new Face Filter software, your pictures look more professional than before! The software lets you adjust skin tones, remove skin blemishes and red eye effect.

All Brother colour inkjet multifunction products come complete with individual fade-resistant colour ink cartridges so colours can be replaced separately – which ultimately saves you money.

For more information regarding Systems Requirements, please visit <http://solutions.brother.com>

- <sup>1</sup> Based on 80gsm paper
- <sup>2</sup> Draft mode printing at 600 x 150dpi
- <sup>3</sup> When used with Brother BP61 Photo Paper - See Consumables Section
- <sup>4</sup> Based on ITU-T Test Chart No 1, Standard Resolution
- <sup>5</sup> Due to the restrictions of OS or applications, scanning at or above 19,200 x 19,200dpi may not support all sizes of documents or images
- <sup>6</sup> Pages are based on normal mode at 5% coverage on A4 / Letter for ink cartridges. The supplied ink will be lesser due to initial purging.
- <sup>7</sup> Supports up to 8GB USB Flash Drive, Brother does not guarantee the compatibility of all brands of USB Flash Drive
- \* MFC-235C comes with monochrome PC-Fax sending only

Brother strongly recommends the use of Genuine Brother consumable products only. Benefits include better quality prints, greater yields per consumable, protection of your machine from damages and achievements of optimum performance. As a precaution, please note that your machine warranty may not cover any damages arising from the use of non-genuine Brother consumables.
